

# Options for disposing of wastes from natural disasters in northwestern Minnesota

**F**loods, tornadoes, and even large structural fires can generate significant volumes of solid waste. In order to manage, sort and dispose of large volumes of unexpected waste, a variety of temporary and permanent disposal facilities may be required. This fact sheet provides information on disposal facilities so local decision-makers can review and plan their disposal options.

Although the alternate disposal options for some items will differ from those normally available to you, the Minnesota Pollution Control Agency (MPCA) has determined that these temporary options will provide the flexibility and expediency needed to address this issue.

For specific information, contact your local emergency operations center (EOC) or your county's solid waste office. If you don't know the phone number for your local contact, call the MPCA Detroit Lakes office at (218) 847-1519 or toll free at (800) 657-3864. More solid waste contact information is also available at [www.pca.state.mn.us/oea/lc/county.cfm](http://www.pca.state.mn.us/oea/lc/county.cfm).

If you have significant amounts of waste materials, you can help the collection efforts by separating your damaged materials for community pickup and disposal as specified in Table 1 below.

Owners of damaged vehicles should personally arrange for their disposal.

**Table 1. Waste Categories for Community Pickup and Disposal**

Category	Disposal Option
<b>Demolition debris</b> , building materials, and concrete	<b>Demolition landfill</b>
<b>Municipal waste</b> , such as food, paper, clothing, household furniture, household waste, trash, and asbestos waste	<b>Sanitary landfill</b>
<b>Hazardous waste</b> : commercial or household	<b>Household hazardous waste collection facility</b>
<b>Tree and brush waste</b>	<b>Compost facility</b>
<b>Appliances, white goods, and electronics</b> , including washers, dryers, dishwashers, furnaces, microwave ovens, water heaters, televisions and computers	<b>Appliance and electronics recycling/disposal site</b>
<b>Oil-soaked absorbent pads and other special wastes</b>	<b>Local designated collection</b>

Below in Table 2 is a listing of common household items and their waste categories. These categories may become less restrictive if a major flood, tornado or other natural disaster occurs. If that happens, additional guidance will be issued.

Some counties may have established special procedures and/or temporary storage sites to

accommodate the large volumes of damaged materials. So, contact your local emergency operations center or solid waste office for disposal facility locations if you plan to haul the disaster-damaged materials yourself.

See Table 3, which begins on the next page, for disposal facilities or transfer stations in your area that accept waste.

**Table 2 Temporary Solid Waste Categories for Residential Items**

Item	Solid Waste Category
Air conditioners	Appliances
Appliances, portable (e.g., toasters, hotplates, heaters)	Municipal waste
Books, magazines (not recyclable)	Municipal waste
Cardboard (not recyclable)	Municipal waste
Carpeting (if remaining in demolished building)	Demolition waste
Carpeting (if removed and placed separately for disposal)	Municipal waste
Clothes dryers	Appliances
Clothing	Municipal waste
Concrete	Demolition waste
Food	Municipal waste
Freezers	Appliances
Furnaces	Appliances
Furniture	Municipal waste
Household pesticides, paints, stains, etc.	Household hazardous waste
Insulation (non-asbestos)	Demolition waste
Untreated lumber	Demolition waste
Microwave ovens	Appliances
Powdered detergent (not Household hazardous waste)	Municipal waste
Refrigerators	Appliances
Sheetrock, wallboard	Demolition waste
Stereos, radios	Municipal waste
Stoves	Appliances
Televisions, computers	Appliances or Electronics
Window glass	Demolition waste
