Great Lakes Coastal Exercises of Interest for 2022

March

1. Duluth Marine Fire Fighting Workshop, Duluth, MN 02 Mar 2022

This workshop will evaluate the MSU Duluth Salvage & Marine Fire Fighting (SMFF) Plan and ACP for response to a fire resulting from an active shooter exercise. Both AMSP and ACP will be reviewed to develop plan revisions.

April

1. Erie Islands ACP Table-Top Exercise, Toledo, OH 14 Apr 2022

The TTX will focus on revisions to both the ACP and GRS by simulating a worst case scenario discharge impacting the western islands of Lake Erie.

May

1. Southeast Michigan Full-Scale Oil Spill Response Exercise with CANUSLAK, Algonac, MI 18 May 2022

This full-scale exercise will deploy response equipment to evaluate all 15 core PREP components to evaluate both the ACP and GRS for Upper Lake St. Clair. A CANUSLAK response involving the exchange of the International Coordinating Officer (ICO) will also be part of the exercise.

June

1. Eastern Great Lakes ACP/GRS TTX, Oswego, NY 10 Jun 2022

The TTX will evaluate the ACP and GRS for Lake Ontario. The exercise will focus on protection strategies for all water intakes.

August

1. Saginaw River WCD TTX, Bay City, MI 17 Aug 2022

This table-top exercise will assume a worst-case scenario oil spill occurs in the Saginaw River. The TTX will evaluate communications, Unified Command, the GRS for the river and potential for countermeasures available.

September

1. Oil Spill GRS TTX, Milwaukee, WI 14 Sep 22

This exercise will evaluate multi-agency coordination during spill response on Western Lake Michigan. There will also be an equipment deployment drill using strategies developed during the TTX.
